Venice Oks Suits to Condemn Old Houses

Initial Condemnations
To Pave Way for Plan
Of Redevelopment

Filing of the first condemnation suits in a program planned by the city of Venice to eliminate much of the city's deteriorated housing properties was authorized by the Venice city council Friday night after City Atty. Harry Hartman notified the council that he had prepared and was ready to file five such cases.

The council, however, approved filing of only two of the cases after Hartman, Building Inspector William Baucum and several aldermen made a personal inspection of all five locations just before the council meeting and found that improvements and the properties are the three of the locations for which condemnation actions had been prepared.

The council authorized filing of proceedings against owners of properties at 1101 Market street and 1319 Oriole street.

The city has been raising a number of substandard dwellings where it could obtain permission to do so from the owners and has been preparing a list of other properties in bad condition. City officials hope to weed out much of the unlivable residences before initiation of a proposed new neighborhood development program that will provide for construction of new homes to replace substandard dwellings.

Where it is impossible to get owners of property in poor condition to make improvements, the city will resort to condemnation proceedings, according to present plans.

The council held up on plans to call bids for two new police cars when alderman Carl Byrnes informed the aldermen that area car dealers told him a package police car bid could be met by house because all car manufacturers are changing over to 1970 models. Specifications are not available on the new models and delivery could not be obtained.

Infant Drowns In Borrow Pit On Chouteau Is.

Donald Ray Marks, 23-month-old son of Mr. and Mrs. Ronald Frank Marks, was pronounced dead upon arrival at St. Elizabeth Hospital at 4 p.m. Thursday. The youngster had been found floating in the water of a borrow pit about 200 feet from his home on Chouteau Island, north of 1-270.

From the family, it was learned the mother found the child and pulled him from the water, and mouth-to-mouth resuscitation was performed by her 17-year-old brother, Larry Bettis, while an ambulance was enroute.

Mrs. Marks had been home about 30 minutes after having taken another son, Ronnie Allen, 4, to a doctor's office. He had just broken his right arm in a 14-foot fall from a barn loft.

She had gone into the house for a few moments and then returned outside to look for the

younger son. When Donald could not be found, a search was instituted by the family. The father was at work at Lipsett Steel Products Co., where he fell into the pond.

Mrs. Marks went up the road and crossed it to look into the borrow pit and discovered her son floating near the bank. It is surmised he had wandered down the little-used road and was walking in tall weeds when he fell into the pond.

Besides his parents and brother, the youngster is survived by grandparents, Mr. and Mrs. Frank Marks, Mr. and Mrs. Don Bettis and Mr. and Mrs. George Kiti, all of Granite City; and great-grandparents, Mrs. Bell Marks and Mrs. Anna McKinney of Granite City, Joe Bettis of Fulton, Mo., and Mrs. Myrtle Shaw of Couch, Mo.

Drainage, Lake Bills Due For Senate Action

The Illinois Senate is expected to vote this week on a bill providing a study of a hillside drainage program for the Madison-St. Clair county area. The measure already has been adopted by the House.

Also docketed for Senate action this week are two bills that would appropriate \$2 million to buy Horseshoe Lake and develop the area as a state park and recreational area. Those bills were approved by the House by a 139 to 0 vote last week.

State Sen. Alan J. Dixon (D-Belleview) said it is not known just what day the hillside drainage measure will be called for a vote but that it has been included on this week's Senate calendar. The Horseshoe Lake bills, however, are expected to be called for a vote on Thursday.

The hillside drainage bill authorizes the Illinois Division of Waterways to investigate and devise a plan of local participation in a federal project for drainage of the flood control. Gov. Ogilvie has a promised state sponsorship and guaranteed the local share of the cost due to the regional nature of the project.

VA Home Appraisals Proving to be Fair

In the past year, only one out of every 14 home-buying veterans paid more for their G.I. home than the Veterans Administration's appraisal price, John B. Naser, manager of the Chicago VA Regional Office, said today.

This indicates that the VA's reasonable value appraisal is fair for the builder or seller as well as for the veteran, he said. Naser explained that Public Law 90-31, which went into effect on May 7, 1968, gives veterans the right to pay more for a home than the VA's reasonable value appraisal.

However, he added, the VA requires that this difference be paid in cash.

In the first 10 months following enactment of PL 90-31, the VA guaranteed or insured a total of 108,814 home loans. Of this total, only 14,325 or 7.2% had a purchase price in excess of the VA's reasonable value appraisal, Naser said.

The Chicago VA Regional Office manager noted that in more than half of the higher than appraisal value sales (785) the difference amounted to \$200 or less.

Veterans paid a \$501 to \$1000 difference in about 360 of the 14,325 above appraisal value sales, he said.

Naser added that 1210 sales involved an above appraisal value cash outlay of \$1001 to \$1500, while 1737 sales required cash payments of \$1501 or more to meet the appraisal-sales price difference.

HORS D'OEUVRES for one of many social functions at Southern Illinois University—Southwestern campus are created by Chef Kenneth Lowman, who will prepare German, Russian, French and other foreign dishes for Mississippi River Festival patrons this summer.

Gourmet Foods to Tempt River Festival Patrons

International cuisine, guaranteed to satisfy the most demanding palate, will be offered patrons of the Mississippi River Festival who choose to dine on campus at Southern Illinois University-Southwestern, site of the six-week music festival.

An adventure in good eating for festival-goers is promised by G. William (Bill) Crab, director of SIU-SW food service and Chef Kenneth Lowman, who report that opening two hours before curtain time, there will be two buffet lines and two snack bar lines able to handle 1500 persons. Two substitutions also will serve hot and cold beverages.

A special highlight of the food "festival" will be a different foreign main dish each week, beginning June 20 with turmeric or bratwurst, served with a German recipe for red cabbage. With it will go German potato salad, German stollen and cherry strudel.

In tribute to the German composers whose works will be played during the festival by the St. Louis Symphony Orchestra, the decor opening night will be coordinated with the German theme, Crab said.

In succeeding weeks, French and Russian composers will be featured and on each occasion the directional signs, posters, even the waiters' uniforms — will suggest the country being celebrated.

Miss GC Pageant to be Saturday at GCHS

One of eight young ladies will be crowned Miss Granite City in the 1969 beauty-talent pageant to be presented Saturday evening in the auditorium of Granite City high school.

The public is invited to attend the pageant, which is sponsored annually by the Granite City Jaycees. Tickets are available in advance from Jaycee and Jaycette members, the contestants, or may be purchased at the door prior to the 8 p.m. show.

To enhance their appearance and talent presentations, the candidates began rehearsals at the Jaycee hall last week, and will continue to practice their routines informally until the dress rehearsal Thursday evening. A motorcade through the community is planned for Friday evening.

Eight Contestants

Candidates are: Miss Dottie Carolyn DeWitt, daughter of Mr. and Mrs. James P. DeWitt, 1538 Lindell Blvd.; Miss Constance Lynn Rotter, daughter of Mr. and Mrs. Robert Rotter, 2453 Pine Street; Miss Denise Cecile Madrid, Box 1285, Rural Route One; Miss Linda Kutosky, daughter of Mr. and Mrs. Joseph Kutosky, 2963 Washington Avenue.

Miss Lauren Kay Shelton, daughter of Mr. and Mrs. Cecil Shelton, 3008 Edgewood Drive; Miss Patricia L. Kinkel, daughter of Mr. and Mrs. Lester Kinkel, 2821 Forest Avenue; Miss Jackie Ann Idon, daughter of Mr. and Mrs. Earl Idon, 3009 Marshall Avenue; and Miss Janice Beth Chandler, daughter of Mr. and Mrs. Leland Chandler, 2904 Dogwood Drive.

A preliminary event to the actual contest is a "Judges' Tea" set for Saturday afternoon at the Rose Bowl restaurant, when contestants are interviewed informally by members of the judging panel. Identity of the judges is not disclosed prior to the contest.

Their task will not be an easy one, as each of the candidates is considered qualified to succeed Miss Leetta Martinon, the current Miss Granite City, as the local representative in the Miss Illinois Pageant, to be held in Aurora, in mid-July.

Local and state pageant judges will base their decision in four categories — talent, swimwear, formal wear and appearance and personality displayed at the judges' tea and on stage.

Talent usually accounts for the greatest accumulation of points for a candidate. Poise and beauty in the evening gown segment of the contest and appearance in a swimming suit make up the remaining points toward success.

Local Awards
Miss Granite City will receive a \$200 scholarship award from the Pepsi-Cola Bottling Co. of Alton and gifts from local merchants and the Jaycee organization.

Winner of the state finals will be eligible to compete for the Miss America crown in Atlantic City, N. J., in early September. Biographical sketches of four contestants appear in this issue. Similar data was published on the other four candidates in last Thursday's Press-Record.

The matron of honor, Mrs. James Gibson, and the bridesmaid, Miss Carla Flowers, are sisters of the bride.

Their costumes designed dresses, an A-line silhouette, fashioned of tropical silk lurex crepe featuring a bodice over of Corday lace in beige. Their full length trains of matching fabric flowed gently from the shoulders. A matching Chapel length veil was secured with tiny velvet bows. Their

flowers were cascades of stephanotis, green cymbidium orchids with velvet ribbons.

Repeated lace motifs were applied on the long A-line skirt, and a wattleau train of lace was secured at the shoulders and fell gently into a full sweeping train.

A forward headdress of lace and jeweled floral petals held securely her tiered veil of bridal illusion. She carried a crescent bouquet of white roses and greenery.

Sen. Ottwein Needs Letters On Lake Park Legislation

"I would appreciate a show of attitude on the part of the citizens of your area" regarding the Horseshoe Lake state park proposal, the Press-Record has been advised by State Senator Merrill Ottwein.

Letters giving the opinion of Quad-Cityans on the park plan may be addressed to: Sen. Merrill Ottwein, State Capitol Building, Springfield, Ill.

If a large number of supporting letters is received, it would be useful in obtaining approval by the Illinois Senate, where House Speaker Ralph T. Smith has asked Sen. Ottwein to handle the legislation adopted last week by the House of Representatives.

1700-Acre Purchase
House Bills 766 and 767 appropriate \$2 million to purchase about 1700 acres of lake bed and surrounding land and designate Horseshoe Lake as a state park and conservation area.

The lake park has been sought for many years and the General Assembly in 1960, 1963, 1965 and 1967 established and continued a Horseshoe Lake Area Commission, which is

headed by Henry D. Karandjeff, Granite City banker. Karandjeff last week urged the public to contact Sen. Ottwein by telegram or letter to inform him of its hope that the park will be created. "It is important that you make your position known immediately," the commission chairman stressed.

Major Tourism Attraction
Along with the nearby Cahokia Mound State Park, possibly the No. 1 archeological site in the U. S., and aided by easy access from the Gateway Arch, a Horseshoe Lake park could attract much tourism in addition to greatly expanding the recreation facilities available to local residents, advocates believe.

Acquisition this year is considered essential due to increasing competition for land, related to plans for a major airport, highway links, SIU-SW, industrial parks, new housing and population growth.

An eventual park development exceeding 7000 acres in size is regarded as potentially ideal for camping.

Farm Column

By WARREN W. BUNDY
Madison County Extension Adviser

Farm Land Prices

Over the past 30 years we have experienced an unbroken increase in farm land prices, but University of Illinois Extension land economist Franklin Reiss says that in the last six months a general leveling off has been observed.

The beginning of the adjustment in land prices started in central Illinois and now has been observed in the western, northern, and southern part of the state.

Reiss explains the reason for adjustment in land values is due to changing expectations of what future income from land are going to be. Experiences from the last two years with a large crop but disappointing prices have not added to the net return to the land. And many people are taking a second look at what they can pay for land.

Reiss says that farmers have the tendency to equate rising yields with rising dollar returns from the land, and it's not necessarily true. He goes on to point out that we grow more than 100 bushels of corn per

acre year after year in our best soils. However, this doesn't mean that we can sell those bushels for the same or an extra number of dollars. But it is the dollar that pays for the land, Reiss concludes.

Here in Madison county land prices have increased more in recent years than in other counties in this area of the state. Future prices of Madison county land used only for agricultural purposes likely will follow statewide trends.

Corn populations is a popular topic with Madison county farmers. Certainly we have seen a dramatic increase in number of corn plants per acre the past few years.

The big question is, "What is the best corn population for my farm?" The answer depends on a number of factors, including fertility level, weed control, planting date, row spacing, moisture supply, and the hybrid you grow.

Let's assume that we are all top farmers and fertilizing liberally, controlling weeds, using a hybrid that is well adapted to high population, and doing an all-around good job. Under these conditions, research studies show we get an increase in yield as we go up from 12,000 to 16,000 plants per acre. Beyond this we may get a further slight increase, leveling off at

Granite City PRESS-RECORD

Mon., June 2, 1969 Page 15

about 20,000. With some hybrids this plateau will occur at 24,000. We are talking about an average year.

In a good year when moisture is plentiful, yields may continue to rise with populations above 20,000 and even up to 24,000. In a dry year yields may begin to fall off at 20,000 and drop quickly at 24,000.

Research from stations throughout the Corn Belt shows no data to suggest that we can gain from going above 24,000 plants per acre at harvest. In fact, most results show declining yields at higher populations.

A number of Madison county farmers who aimed for 24,000 plants per acre the last year or two say they are pulling back to 22,000.

Top corn growers should shoot for a harvest population of 18,000 to 20,000 plants per acre in 38- or 40-inch rows. Farmers planting in 30-inch rows may benefit from going up another 4000 or so.

If you're thinking of raising your corn population, check all of your cultural factors. Everything you do to improve corn growth and boost yields will also allow you to increase your populations one more notch.

Shorten State Constitution, Candidate Says

In formally declaring his candidacy for one of the delegate positions at the 1969 Illinois constitutional convention, Wendell Durr, an Edwardsville attorney, said during the weekend that he views the convention as "a time of great opportunity for the state."

He related that "our current constitution is 100 years old, drafted at a time when our citizens traveled by horseback over dirt roads. We now are a state of many millions of people in the midst of the technological 20th century, primarily an urban population facing primarily urban problems."

"It is my belief that the current constitution exhibits a distrust for the common people of our state by placing all governmental powers in the state itself, and permitting the state to solve their own problems using only those tools which the state is willing to assign to the cities."

Grant More Home Rule

"This, of course, is directly the opposite of the United States Constitution, which shows faith and trust in the people by saying that all powers not given to the federal government are retained by the people of several states."

"Our state constitution would do well to follow this example and place trust in the people by permitting the people of the various municipalities to solve their problems in such manner as they themselves see fit, through their elected aldermen and village trustees, subject, of course, to the broad controls of the constitutional concepts we have developed primarily through the U. S. Constitution."

Cities, Like Other Districts, Require Higher Operating Funds

(Third of a Series)
By HARRY BARNES

City governments are among the taxing agencies whose operating costs have risen substantially during the past ten years, and particularly during the last five-year period.

With exception of the school districts, municipalities within the Quad-City area employ the largest working forces of all other tax agencies and therefore are subject to more substantial payroll requirements.

During recent years, payroll demands have increased from year-to-year, contributing to heavier tax demands by the cities to pay policemen, firemen, street workers and other employees.

Because it is the largest of the three cities in the Quad-City area, Granite City carries the largest municipal tax burden. This year, Granite City taxpayers will be billed for payment of \$1,728,995 in corporate taxes, an increase of \$67,285 or 51% over the tax bill of \$1,661,710 ten years ago.

Rise in Last 5 Years
Here again the bulk of the tax increase has been within the

past five years of the last decade, rather than spread equally over the full ten-year period.

During the five-year period from 1958 when the tax bill of \$1,091,710 was extended for Granite City, to 1963 when the total tax extension amounted to \$1,126,300, the amount of increase was only \$34,590.

But during the last five years of the ten-year period, from 1958 to the current tax extension, the total increase amounts to \$602,685.

Actually, Granite City's tax picture has been a sporadic one of rising and dropping rates and valuations over the last ten

years, and discloses that most of the rise in the city's tax cost has occurred not over the last five years, but within the last two years. This was due to a drop in tax extensions that resulted in smaller incomes for the 1965 and 1966 tax years.

Although the 1963 tax extension of \$1,091,710 was cited for comparison purposes on a five-year basis, this tax rose the following year to only \$1,151,273 on a tax rate of 75.5 cents per \$100 assessed valuation, and then, for the 1965 tax year, nosedived by \$203,809 for a total 1965 tax extension of \$947,464.

While the city's 1965 property assessment amounted to \$125 millions, or \$3 millions more than that of the previous year, the city rate fell off 14.7 cents per \$100 from the 1964 75.5-cent rate, accounting for the reduction in income for the 1966 tax year.

During the 1966 tax year, the city regained some of the lost tax ground with a new tax rate of 65.9 cents which resulted in a 1966 tax extension of \$1,030,210. Its major tax rises occurred, however, during the 1967 tax year for which taxes were collected in 1968 and 1969 tax year for which taxes will be billed in a matter of a few weeks.

For the 1967 tax year the city's tax rate based on higher tax levies moved up to 68.2 cents and was applied against a substantially increased property valuation of \$168 millions, or \$13 millions more than the valuation had been two years earlier. This produced a tax extension of \$1,321,935 for the city during the 1967 tax year.

This year's Granite City municipal tax rate is 99.5 cents per \$100 assessed valuation, while the valuation is \$173,768,430, up more than \$5 millions over the 1968 assessments. The total tax extension for this year is \$1,728,995.

Moderate Increase
The cities of Madison and Venice have increased tax costs over the last ten years, but oddly enough, only on a small scale. The city of Venice, in fact, required a 1963 tax extension that was less than the 1968 extensions of five years previous, while Madison increased its municipal tax cost only \$20,000 over the five-year period from 1958 to 1963 and only \$34,000 from 1963 to the current tax extension.

Madison's city tax bill for the 1968 tax year amounted to \$193,646, increasing to \$213,911 five years later in the 1963 tax year. Its current tax extension amounts to \$248,143 for the 1968 tax year to be collected this summer.

The city of Venice had a total tax extension of \$335,179 for the

Redmons are Parents Of First Child

Kai Michael Redmon was born Friday at St. Elizabeth Hospital to Mr. and Mrs. Bogie Redmon of Collinsville. The infant weighed seven pounds, 12 ounces, and is the couple's first child.

The mother is the former Judy Harlow, daughter of Mr. and Mrs. Lloyd Harlow, 2109 Johnson road. The other grandparents are Mr. and Mrs. Gant Redmon of Collinsville.

Hit-Run Damage

Gary Bezan, 2211 Dawn avenue, reported to Madison police Thursday night that his car was dented when parked on the La Cade Steel Co. parking lot while he was working. He said his car apparently was struck by another auto that left the scene.

1958 tax year, but by 1963 this total had fallen to \$314,757. This year, it has risen by \$127,556 to a total of \$1,728,995 to a total of \$442,416.

The village of Pontoon Beach, organized in 1963, has not yet levied a village corporate tax, financing its operations with income from licenses and other forms of city revenue.

Have Other Income
Like the school districts, cities and villages do not operate on tax income alone. Tax revenues are supplemented by sale of business licenses, auto tags and inspection fees. Much of the municipal road and street work is done with motor fuel tax funds provided by the state and the cities receive proportionate shares of the state sales tax collections.

On a county-wide basis, the overall tax cost of Madison county cities and villages have increased at a substantial rate during the past four years, according to available extension figures.

Records show that for the 1965 tax year, the overall tax extension for all cities and villages in Madison county amounted to \$3,578,613.

That figure increased to \$4,777,616 for the 1966 tax year, and to \$5,009,760 for the 1967 tax year.

For the 1968 tax year, to be collected this year, the total county tax bill for city and village purposes is \$6,001,867.

That amount is an increase of \$2,121,591 over the last three year period, or an increase of 54% in the cost of municipal tax requirements.

Terry Thweatt Charged; Drunk and Disorderly

Terry J. Thweatt, 41, Wood River Carpenter's Union member who is waiting trial on a charge of pistol whipping another union member, is free on bond in still another case as the result of his arrest in a Wood River tavern Thursday afternoon by Wood River police.

Thweatt, charged with disorderly conduct and intoxication, posted \$50 cash bail pending a magistrate hearing set for June 23.

Police said they were called to Chico's Lounge in Wood River about 1 p.m. Thursday and told that Thweatt was acting in a vulgar manner in front of tavern patrons. When asked to leave and told that no more drinks would be served, Thweatt became belligerent according to the bar owner. A companion who lives near Thweatt on Chouteau Island Slough road and two East St. Louis men were not arrested, police said.

Alfred Fairfield, 65, Found Dead at Home

Alfred Pat Fairfield, 65, of 2088 East 20th street, was found dead about 8:15 a.m. Saturday at the bottom of the basement steps at 2010 East 20th.

Coroner Robert Thoms said he had been dead several hours, and police believe he had fallen down the stairway. Mr. Fairfield, a retired watchman for a St. Louis paper firm, lived alone. Police said his wife was in his post and his apartment was unlocked and he was undisturbed. He had a small cut on his right eye.

An inquest is pending. Police were notified by William Buer of 2027 Pontoon road.

Mr. Fairfield was a native of Indiana and lived here 60 years. Survivors include a daughter, Mrs. Gladys Lorraine Green of Glen Carbon, a son Fred E. Fairfield of Granite City; a brother, Bill Fairfield of St. Gabriel, Calif.; three half-brothers, George Reeves of Michael, Ill., Joseph and Virgil Reeves of Granite City; three sisters, Mrs. Sue Tankley and Mrs. Anna Mae Murphy of Granite City and Ruth Reeves of Michael and five grandchildren.

\$52,390 Allocated to Area To Establish 155 NYC Jobs

An estimated \$52,390 in federal funds was allocated to employ 155 in-school Quad-City youth in an eight-week summer program sponsored by the Neighborhood Youth Corps, it was announced Friday at a special meeting held in the office of Granite City Mayor Donald Partney.

John C. Lobos, director of the NYC program in Madison and St. Clair counties, said that \$25,350 has been allotted to the Granite City NYC program to provide 75 job opportunities for in-school youth between the ages of 16 and 21 years.

Fifty youths will be employed in Madison, with \$16,900 allocated, and \$10,140 has been set up to employ 30 young people in Venice.

Lobos noted that favorable results to the Granite City program last year has resulted in an increase this summer from 30 to 75 jobs. He cited keen interest and action by Mayor Partney in promoting the NYC project as the prime reason for the funding increase.

Purpose of the Neighborhood Youth Corps project is to assist

disadvantaged youth in obtaining work training experience and to help many remain in school by earning money during the summer months. Youth qualifying for the program will work 26 hours a week and will be paid \$1.30 per hour. Granite City enrollees will work with city employees in the library, public housing project, animal shelter, city hall and on a special beautification projects.

Youths whose applications have been approved for the Granite City program are being notified by mail to attend an orientation meeting next Monday morning at Niedringhaus United Methodist Church, according to C. A. MacMillan, coordinator of Youth Services executive director, who is assisting Mayor Partney with the NYC youth employment program.

Those participating in Friday's meeting, included Mayor Partney, Mayor Pro Tem, Stevens, city comptroller, Assistant Police Chief George Teller, Mrs. Mary Knutson, head librarian and David Morgan, Granite City public housing director.

Festival Plans to be Reviewed at Coffee

To acquaint more local residents with first-hand knowledge of the Mississippi River Festival, which starts Friday, June 20, at Southern Illinois University-Southwestern campus, a large group of Quad-City women has been invited to a "coffee" at 10:30 a.m. tomorrow in the International Room of the SIU-SW Student Center.

John Rendleman, wife of the SIU-SW chancellor, and Mrs. Wesley Ager, Festival general ticket chairman, will welcome the guests and give a brief color slide presentation on the background and planning of the six-week musical event. The Festival will include weekend concerts by the St. Louis Symphony Orchestra and weekday appearances by top pop, rock and folk artists.

E. A. Karandjeff and Mrs. Vasil Eitimoff, local ticket chairmen, have planned a bus tour walking tour of the Festival site, tent and dressing rooms the afternoon following the Tuesday morning coffee hour.

Schermer Hdw. Stores Sold to X-L Corporation

Interests of the Schermer Hardware stores in downtown Granite City and Ponton Beach have been acquired by the X-L Hardware Corporation of Illinois, it was announced today by H. E. Penner, vice-president of the corporation.

There will be no change in the management or the personnel of the two stores and both locations will continue their present hours of operation, Penner said. Robert Copeland will continue as manager of the downtown store at 1918 Delmar avenue, and Herman Barker will remain as manager of the Ponton Beach store at 4010 Ponton road.

"The only noticeable change to the public will be the change in the name from the Schermer 'Ace' Hardware to Schermer 'X-L' Hardware," Penner noted. "Both stores will continue to carry the high quality merchandise they have carried in the past, including many nationally known brands. In addition, they now will carry some of our own X-L label products and all items will continue to carry the manufacturers' guarantee."

The X-L Hardware Corporation of Illinois is a wholly-owned Illinois Corporation with retail outlets in Illinois, Missouri, Kentucky, Tennessee, Arkansas, Oklahoma and Kansas. The corporation is headquartered in St. Louis.

40-Year Reunion for GCHS January-June '29 Classes

A large block "G" hung on the wall and colorful pennants decorated the tables, proclaiming the festive occasion as the 40-year reunion of the 1929 January and June graduating classes of Granite City high school.

The reunion dinner party, took place Saturday evening at the Rose Bowl restaurant, amid a buffet of reminiscence, which 68 "old grads" discussed experiences since last they met.

Many mementos used in the decorating scheme suggested to guests that football was uppermost in the thoughts of arrangement committee members. This indication was supported, somewhat, by the perfect 9-0 record and conference championship captured by the 1929 GCHS football team, a record which has never been equaled in the school's 48-year gridiron history.

The eye-catching block "G" was the centerpiece. Photographs of 1929-30 football players reproduced the 1929 yearbook, proved the conversation piece. A "Welcome Class of '29" sign, created by Eugene Alasti, GCHS department director, decorated another part of the room.

Among those attending was William "Bill" Charbonnier, vice-president and sales manager of C. E. Walsh Refractor, Division of Combustion Engineering, St. Louis, a member of the 1928 championship team.

Charbonnier acted as master-of-ceremonies for the 1929 "Granols" yearbook from which photographs of each graduate were reproduced and placed on name tags worn at the dinner. Harold Williams, no relations to the yearbook editor, who served as January class president, sent his regrets that he could not attend, but described for classmates by letter a trip made last year to New Zealand and the Fiji Islands. He presently resides in San Francisco, where he is associated with the YMCA.

Eighteen deceased members

of the two classes were listed on a black and gold memorial scroll, created by William E. Ogden, the husband of Mrs. Peg Austin Ogden, co-chairman of the reunion.

Mrs. Mary Segar Evans, a teacher in the Madison schools, headed the arrangement committee, assisted by Mrs. Ogden, Mrs. Evelyn Gray Fides, Mrs. Thelma Austin Grisham and Mrs. Ella Mae Neperst Harsh.

The January 1929 class was composed of 23 boys and 23 girls. Eight classmates are deceased and one, E. D. Cherry, has not been located. Thirty-two girls and 30 boys were in the June class, with ten members deceased and Burdette Neavill unlocated.

Awards presented to individuals from the two classes, included: Married longest—Mrs. Earl R. (Hildred Veatch) Law, January, and Mrs. LaRue (Roberta Wadlow) Baxter, June; most children—Mrs. Vivian Huggins Haug, five, January, and Wayne Mosby, four, June; most grandchildren—Vivian Haug, Mrs. Ogden and Ernest Stainton, eight each, January, and Raymond Stank, Gerald, Mo., 11, June.

Youngest child—Avery Towse, 20 years, January, and Everett Brady, 14 years, June; youngest grandchild—Mrs. Charles (Margaret Adzell) Moore, Belleville, eight months, January, and Dr. Dexheimer, Belleville, six weeks-old, June; and traveled farthest distance—Ernest Stainton, Bloomington, January, and Mrs. Arthur (Blanche Engd) Williams, Waco, Tex., June class.

Out-of-town guests included: Mrs. Roberta Wadlow Baxter of Niles, Mich., James Lynch of Deerfield, Ill., Mrs. Alma Williams Elthridge of Allamogosa, O., Raymond Stank of Gerald, Mo., Mrs. Hazel Spalding Wright of Decatur; Ernest Stainton of Bloomington, Ill., and Mrs. Blanche England Williams of Waco, Texas.

Mrs. Williams was editor-in-chief of the 1929 "Granols" yearbook from which photographs of each graduate were reproduced and placed on name tags worn at the dinner. Harold Williams, no relations to the yearbook editor, who served as January class president, sent his regrets that he could not attend, but described for classmates by letter a trip made last year to New Zealand and the Fiji Islands. Changes Announced in Farm Loan Plans

Lee Rogers announced today changes in Farm Loan Programs administered by the Agricultural Stabilization and Conservation Service. Service fees are increased from Commodity Price Support Loans and several provisions of the Farm Storage and Dryer Equipment Loan Program have been revised.

The interest rate on price support loans remain unchanged at about 3 1/2%. While this is less than the government pays for interest, any increase would tend to be self-defeating in reducing government costs, Rogers said. An increase would tend to discourage redemption of loans. This in turn would increase CCC's loan and investment cost.

The changes in the Facility Loan Program are being made to limit government expenditures as an aid in the fight against inflation. This program helps finance on farm grain storage bins and dryers with Commodity Credit Corporation funds. According to Rogers, the following new provisions became effective May 30.
